

# SpaceMax™

Instant redeployable shelter anywhere on earth - *even in the harshest of terrain.*

The SPACEMAX™ system has set the benchmark for high mobility shelters. Light and easy to transport SPACEMAX™ is its own shipping container and provides instant redeployable accommodation solutions. The SPACEMAX™ line of high-tech, foldable, portable buildings offer innovative solutions for flexible living and workspace needs. SPACEMAX™ can

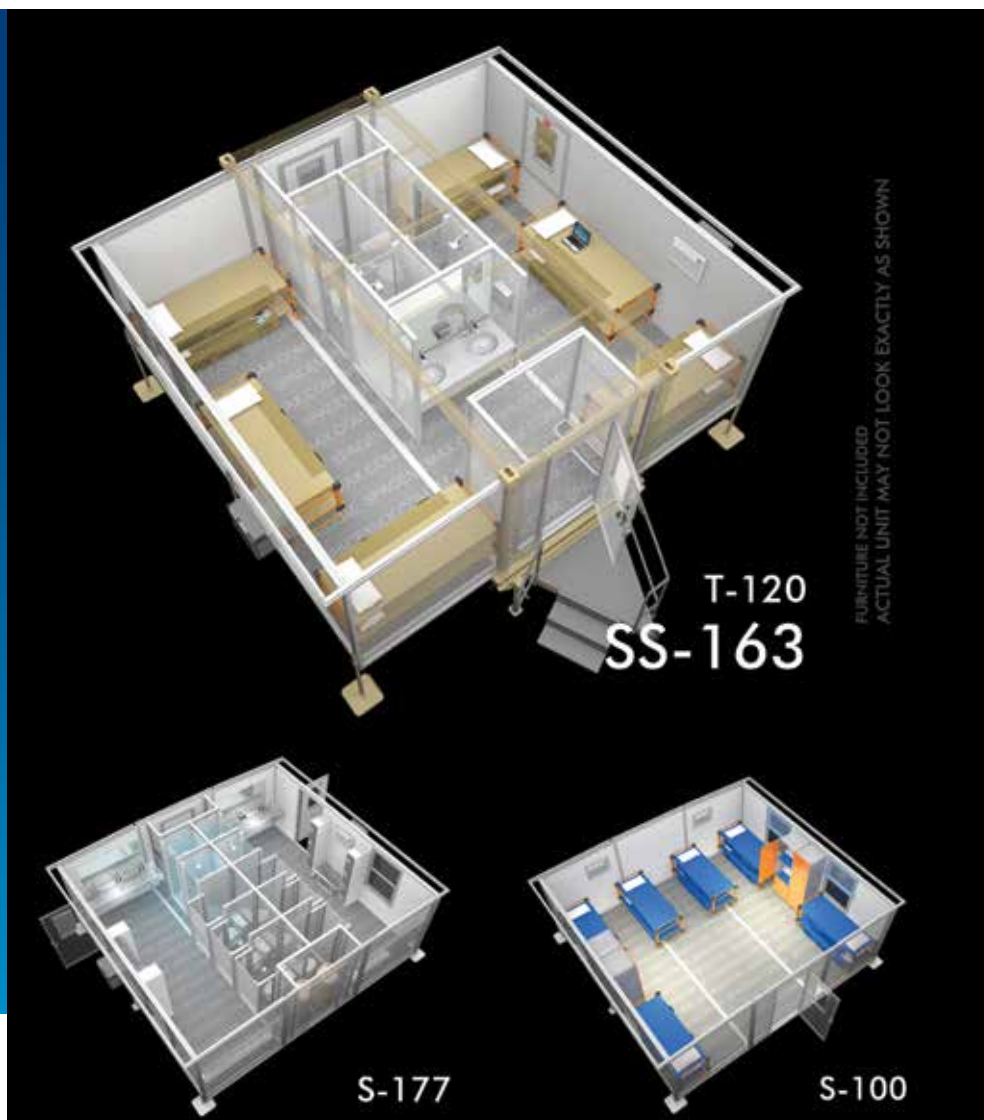

deploy in less than five minutes with plug-in electrical and plumbing systems. They fold and expand with a proprietary, patent-protected wall system that links together air-tight and water-tight and separates external and internal surfaces with a unique thermal-break design.

## Benefits of SpaceMax:

- Flexible building options
- Highly transportable
- Rapid deployment and installation
- ISO compliant
- Plug and play installation
- Greater comfort
- Lower life-cycle costs
- Fast set-up time
- Massive energy-use savings

## Applications:

- Accommodation
- Essential services
- Recreation facilities
- Office facilities

## Specifications:

 20	 5m x 6m	 Turnkey Solution
---	--	---
